

Carmelina/Corissa,

Hey. The least I could do was put this in writing. (Get out the Kleenex!)

Once upon a time...

My name is Rebecca Grefski and my oldest daughter Emma has been attending the Pre-school Program for the past year. When my family first moved to Commack, I researched and visited several local preschool programs in the area. When I stumbled upon Once Upon a Time and met with Carmelina and Carissa, I thought I had finally found the wonderful, warm environment for my daughter to start her education.

It has been about a year now... Emma has moved up to from the 2 year old class to the 3 year old class and is doing well. Most important - she LOVES to go to school! Carmelina and Carissa provide a comfortable and safe environment along with a fun structured program that helps children learn. Each week a weekly letter is sent home that describes the children's activities and what they are learning in each class. This information is helpful and allows me to reinforce these skills at home in her everyday routine.

Since Emma's experience has been so wonderful, we recently started our 2 year old Kate in the program as well.

In addition to the comfortable environment they are providing for both my girls - both Carmelina and Carissa have provided me with personal, one-on-one communication on how my girls are doing on a regular basis. They are extremely accommodating and a pleasure to speak with. I know my girls are in good hands!
